

Backhoe, w=550 mm

29.52-38-72-000-1

Backhoe is determined to dig the soil slots and holes, in the whole rotating range of jib in rotating suspension. Its main advantage is possible digging next to the walls able by moving working device to the side

Technical specification	29.52-38-72-000-1
Shovel width	550 mm
Digging depth	3 100 mm
Dumping height	2 520 mm
Backhoe width	2010 mm
Backhoe length	2458 mm
Backhoe height	2510 mm
Weight	984 kg

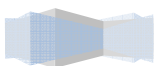

Backhoe, w=550 mm

MZ 80002

Backhoe is determined to dig the soil slots and holes, in the whole rotating range of jib in rotating suspension. Its main advantage is possible digging next to the walls able by moving working device to the side

Technical specification	MZ 80002
Shovel width	550 mm
Digging depth	3,3 m
Dumping height	2,2 m
Weight	830 kg

Drainage bucket, w=320 mm with self-emptying system 29.52-38-87-000-1
Drainage bucket, w=280 mm with self-emptying system MZ 80028

MZ-800XX shifted backhoe equipment is a working attachment for skid steer loaders intended for digging canals, trenches and ditches, for demolition and dozing work.

Technical specification	29.52-38-87-000-1	MZ 800 28
Widht	320 mm	280 mm
Lenght	784 mm	800 mm
Height	490 mm	650 mm
Weight	46,6 kg	60 kg
